E. Cost of Project: \_\_\_\_\_

**F. Properties located in a flood plain: If your property is located in a flood plain you are required to obtain a flood elevation certificate. This must come from a certified professional surveyor or engineer.**

Please use the space below to draw a site plan of the proposed project. Show any additional structures or natural/man made features that exist on the property (i.e. Pool, sheds, fences, driveways, ponds, streams, etc. Please do not include vegetation.) Also note the distances from the proposed project to the neighboring property lines and any roadways (These are your setbacks. Please also list above in section D.) If your property contains any Right-of-Ways or Easements please note them as well. The location of your Sewage Facility and Well will need to be noted if you have on-lot facilities.

The grid consists of 30 columns and 45 rows of small squares, intended for drawing a site plan of the proposed project, including structures, fences, driveways, ponds, streams, setbacks, and easements.

I am the owner of record (or authorized Agent) of the property in application. The information provided is true and correct to the best of my knowledge. I understand that providing false information on this is subject to penalties and or permit revocation.
